Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The following action is in response to the amendment received April 23, 2007.

Drawings

The replacement sheet of drawings was received on April 23, 2007. This drawing is acceptable.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 13-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There does not appear to be basis in the original disclosure for claiming "the spring force being within an order of magnitude of the force of the linear compensating spring." The original claims and the disclosure state that the spring force is "adapted to a magnitude of the force of the linear compensating spring. The intended meaning of the previous language was objected to as indefinite, but it is unclear that the language would mean that the one force is within

an order of magnitude of the other force. Applicant asserts that the new language is supported by the showing of original Fig. 6, stating that "line I is adapted via the spring force to be within the magnitude of F_{KO} ". In the figure line I shows "actuating force", not the spring force acting in the direction of the springiness of the lining. Thus it is not seen that the figures provide support for the new claim language.

Response to Amendment

The amendments to the specification overcome the objection to the disclosure set forth in the previous Office action. Therefore, the objection is withdrawn.

The claim amendments overcome the rejection of the claims under 35 USC 112, 2nd paragraph, set forth in the previous Office action. Accordingly, the rejection under 35 USC 112, 2nd paragraph, is withdrawn.

The Maucher('365) reference does not appear to meet the amended claim 13. Accordingly, the rejections under 35 USC 102(b) and 35 USC 103(a) set forth in the previous Office action are withdrawn.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Barker et al.(GB 2 374 421 A) is cited for its showing of compensating spring 60 in a clutch actuator.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
